

Creating table

```
MariaDB [(none)]> use mmoustaf
```

Reading table information for completion of table and column names

You can turn off this feature to get a quicker startup with -A

Database changed

```
CREATE TABLE quotes (id INT AUTO_INCREMENT PRIMARY KEY,  
quote VARCHAR(255) NOT NULL);
```

Populating quotes table

```
CALL addquote('The man who moves a mountain begins by carrying away small stones.');
```

```
CALL addquote('The measure of a man is what he does with power');
```

```
CALL addquote('The only true wisdom is in knowing you know nothing.')
```

```
-> ;
```

```
CALL addquote('The greatest way to live with honor in this world is to be what we pretend to  
be.');
```

```
CALL addquote('The secret of change is to focus all of your energy, not on fighting the old, but  
on building the new.');
```

```
CALL addquote ('Courage is knowing what not to fear.');
```

```
CALL addquote ('The beginning of wisdom is a definition of terms.');
```
