CS3997 Professional Practice
Fall 2022

Professional Networking
Due: December 8th, 2022, by 10:00 am.

You are to write a brief report of your professional experiences from attending at least **FIVE** various professional events. Sample events include but are not limited to FCS Awards dinner, Planet Hatch events, CS Square events, IEEE events, Career Fairs, etc. For each event you are to provide a critique of your experience. In your report you can address questions such as:

- Who is the person(s) you met? Name, affiliation, position, …
- Where did you meet this person?
- What did you learn about them?
- What did you tell them about you?
- Was the interaction a "success"? Why (or why not)?

For each professional that you meet, please provide an analysis of your thoughts on the interaction. What did you do right? What did you do wrong? What did you learn from the experience that you would apply to your next professional networking experience?
